
Section V

Enhancing the Development of Wellness, Social Skills, and Life Competencies

Volume 4 of *Best Practices in School Psychology V* supports an understanding of the Blueprint III competency emphasizing Enhancing the Development of Wellness, Social Skills, and Life Competencies

Description: School psychologists should be the leading mental health experts in schools who are knowledgeable about development in social, affective, and adaptive domains and are able to identify and apply sound principles of behavior change within these domains in order to help design and implement prevention and intervention programs to promote wellness and resiliency.
